

## PROJECT DESCRIPTION

RE&LS provided construction inspection for three bridges carrying I-190 and NY Route 265 (Military Road) over the New York Power Authority (NYPA) Reservoir in the towns of Niagara and Lewiston.

This is a \$41.1 million dollar project included complete bridge superstructure replacements for the southbound I-190, northbound I-190 and NY 265 bridges over the NYPA Reservoir, approach slab replacement and repairs to the substructures of the bridge. New guiderail was installed along both I-190 and NY 265. NY 265 was resurfaced between its intersections with NY Route 31 and NY Route 104.

RE&LS provided a NICET Level II construction inspector on this NYSDOT design build project.
